CHAPTER 8. STATE AID FOR LOCAL HEALTH ADMINISTRATION

(Chapter 8 added by Stats. 1947, Ch. 1562.)

Article 1. Definitions and General Policy

Policy 1100. The rapid increase in the population of the State and the increasing industrialization in both the urban and rural areas necessitate the provision of effective public health services to all the people of the State.

In many areas within the State local public health agencies (that is, health departments of counties, cities and local health districts) lack the necessary funds, and the local population lack the means to furnish funds, to provide effective public health services.

The Legislature therefore seeks to further the provision of necessary public health services by granting financial assistance to cities, counties, and local health districts, thus enabling them to meet present and future health needs in an efficient and effective manner. The funds to be granted are to augment local appropriations provided for public health purposes, and shall not be used to replace local appropriations.

Minimum population for public health unit The administrative pattern providing public health services to all the people of the State will vary in different areas. It is generally recognized that the minimum population necessary for efficient administration of a local public health unit is approximately 50,000. To attain this desirable population minimum it will be necessary in some areas for two or more counties to unite and establish a single administrative public health unit.

(Added by Stats. 1947, Ch. 1562.)

"Population" 1101. "Population," for the purpose of this chapter, shall be determined by the most recent United States decennial census; provided, however, whenever it appears to the State Department of Public Health that the population of any city, county, or city and county has changed sufficiently to warrant

adjustment, the State Department of Public Health for purposes of this chapter may determine population for cities, counties, and cities and counties.

(Added by Stats. 1947, Ch. 1562.)

1102. For the purposes of this chapter a "local health department" shall be interpreted to mean any one of the following public health administrative organizations:

"Local
health
department"

(a) A local health district created pursuant to Division 1, Part 2, Chapter 6 of the Health and Safety Code, which includes territory in one or more counties, and which includes at least all of the cities which have less than fifty thousand population in such county or counties.

(b) A local health department serving one or more counties which shall on the effective date of this act and thereafter provide services to all cities whose population is less than fifty thousand in addition to the unincorporated territory of such county or counties.

(c) A county health department which does not serve all of the cities of less than fifty thousand population, but which has the provisional approval of the State Department of Public Health, in accordance with Section 1140; provided, however, that such provisional approval shall terminate on the ninety-first day after final adjournment of the 1951 Regular Session of the Legislature.

(d) The health department of a city of fifty thousand or greater population, except that the governing body of such city by resolution may declare its intention to be included under the jurisdiction of the county health department, or of the local health district serving other territory in such county, as provided by existing statutes.

(e) The local health department of any county which had under its jurisdiction on the effective date of this chapter a population in excess of one million, or the local health department of any city and county.

(Added by Stats. 1947, Ch. 1562; amended by Stats. 1949, Ch. 967.)

Article 2. Administration

1110. There is hereby established a California Conference of Local Health Officers with which the board and the department shall consult in establishing standards as provided in this chapter. The conference shall consist of all legally appointed local health officers in the State. It shall organize, and shall annually elect a president, a vice president and a secretary, who shall serve as the executive committee of the conference and each of whom shall be a full-time local health officer. The president of the conference, after consultation with the director, shall appoint, for the purpose of advising with the director, such other committees of the conference as may from time to time be necessary.

California
Conference
of Local
Health

The text of the petition shall be published, for at least two weeks before the time it is to be presented, in the county where the petition is presented, and in each city a portion of which is included in the proposed district.

The text of the petition published shall have attached a notice stating the time of the meeting of the board of supervisors at which it will be presented.

2218. On the final hearing the board of supervisors shall make such changes in the proposed boundaries as are advisable, and shall define and establish the boundaries.

Changes in
boundary

2219. If the board of supervisors deems it proper to include any territory not proposed for inclusion within the proposed boundaries, it shall first cause notice of its intention to do so to be mailed to each owner of land in the territory whose name appears as owner on the last completed assessment roll of the county in which the territory lies, addressed to the owner at his address given on the assessment roll, or if no address is given, to his last known address; or if it is not known, at the county seat of the county in which his land lies. The notice shall describe the territory, and shall fix a time, not less than two weeks from the date of mailing, when all persons interested may appear before the board of supervisors and be heard.

Additional
notice on
change of
boundary

and conclusive against all persons except the State in a suit commenced by the Attorney General.

Order of
formation

The name shall contain the words "mosquito abatement district."

Filing of
order

2224. The county clerk shall immediately file for record in the office of the county recorder of each county in which any portion of the land embraced in the district is situated, and shall also forward to each board of supervisors of each of the other counties, if any, in which any portion of the district is situated, and also shall file with the Secretary of State, a certified copy of the order of the board of supervisors. From and after the date of the filing of the certified copy with the Secretary of State, the district named therein is organized as a district, with all the rights, privileges, and powers set forth in this chapter, or necessarily incident thereto.

Change of
name

2225. If at any time after the board of supervisors has entered its order for organization good cause appears therefor, the district board may, by a two-thirds vote of its members, adopt a resolution reciting the facts, declaring the advisability for a change of the district's name, and setting forth therein a new name for the district. A certified copy of such resolution shall be transmitted to the board of supervisors of the county in which the district, or the greater portion of the land of the district, is situated.

Article 5. Finances and Taxation

Estimate
of money
needed

2300. The district board of each mosquito abatement district shall, at least 15 days before the first day of the month in which the board of supervisors of the county in which the district is situated is required by law to levy the amount of taxes required for county purposes, furnish the board of supervisors and county auditor of the county an estimate in writing of the amount of money necessary for the district's purposes during the next ensuing fiscal year. The amount of money necessary for the district's purposes may include a cash-basis fund and an emergency fund.

(Amended by Stats. 1947, Ch. 1020.)

Proration of
estimate

2301. If the district is in more than one county the total estimate shall be prorated for each county by the district board in proportion to the value of the taxable property of the district in each county. The value of the taxable property shall be determined from the last equalized assessment rolls of the counties. When the proration of the estimate has been made, the district board shall furnish the supervisors and auditors of each county a written statement of the apportionment for that county.

2302. The board of supervisors of each county in which any part of a district is situated shall, at the time of levying county taxes, levy a tax to be known as the "----- mosquito abatement district tax," sufficient to raise the amount reported to it by the district board, upon property of the district in the county. The board of supervisors shall determine the rate of the tax by deducting 15 per cent for anticipated delinquencies from the total assessed value of the taxable property of the district within the county as it appears on the assessment roll of the county, and then dividing the sum reported to it by the district board by the remainder of the total assessed value.

(Amended by Stats. 1st Ex. Sess. 1946, Ch. 43.)

2302.1. If the rate thus produced is fifteen cents (\$0.15) or less on each one hundred dollars (\$100) of taxable property of the district in the county the county board of supervisors shall levy the tax at the rate thus produced. If the rate thus produced exceeds fifteen cents (\$0.15), the board of supervisors may require of the district such information as will enable it to determine the necessity of the expenditures contemplated by the estimate, and, in its discretion, and after a finding of neces-

sity therefor, levy the tax at the rate thus produced or at such lower rate as it finds will produce the amount required to meet the expenditures found by it to be necessary; but if it finds that such necessity does not exist, it shall levy the tax at the rate of fifteen cents (\$0.15) or less on each one hundred dollars (\$100) of taxable property in the district.

If the district is in more than one county, the board of supervisors of any county in which the district lies shall not levy a tax at a rate in excess of fifteen cents (\$0.15), unless the boards of supervisors of the other counties in which the district lies levy the tax at the same rate. If the boards of supervisors can not agree on a rate to be levied in excess of fifteen cents (\$0.15), the rate of tax shall not exceed fifteen cents (\$0.15). The maximum rate of the tax shall not be greater than forty cents (\$0.40) on each one hundred dollars (\$100) of taxable property of the district in the county.

(Added by Stats. 1st Ex. Sess. 1946, Ch. 43.)

2303. Whenever it appears to the district board that the amount of funds required during an ensuing fiscal year will exceed the amount that can be raised by a levy by the board of supervisors of the maximum rate for the annual district tax, the district board may call an election to submit to the electors of the district the question of whether a tax shall be voted for raising the additional funds.

Election for
additional
tax

2304. Notice of the election shall be published for at least four weeks prior to the election.

Notice

2305. No particular form of ballot shall be required, nor shall any informalities in conducting the election invalidate it if it is otherwise fairly conducted.

Conduct of
election

2306. At the election the ballots shall contain the words "Shall the district vote a tax to raise the additional sum of -----?", or words equivalent thereto.

Ballot

2307. The district board shall canvass the votes cast at the election, and if a majority are in favor of the imposition of the tax, shall report the result to the board of supervisors of the county in which the district is situated, stating the additional amount of money required to be raised. If the district is in more than one county the additional amount shall be prorated for each county by the district board in the same way that the district's original total estimate of funds is prorated; and the district board shall furnish the supervisors and auditor of each county a written statement of the apportionment for that county.

Canvass

Proration
of tax

2308. The board of supervisors of each county receiving the written statement shall, at the time of levying county taxes, levy an additional tax upon all the taxable property of the district in the county sufficient to raise the amount apportioned to that county.

Levy of addi-
tional tax

2309. All taxes levied under this chapter shall be computed and entered on the county assessment roll by the county

Collection

auditor and collected at the same time and in the same manner as other county taxes. When collected, the taxes shall be paid into the county treasury for the use of the district.

Funds 2310. If the district is in more than one county the treasury of the county in which the district is organized is the depository of all funds of the district.

Accounting 2311. The treasurers of the other counties shall, at any time, not oftener than twice each year, upon the order of the district board settle with the district board and pay over to the treasurer of the county where the district is organized all money in their possession belonging to the district. The last named treasurer shall receipt for the money and place it to the credit of the district.

Withdrawal of funds 2312. The funds shall only be withdrawn from the county treasury depository upon the warrant of the district board signed by its president or acting president, and countersigned by its secretary. However, if the county in which the district is situated has adopted a requisition system covering the withdrawal of funds for the purchase of services or supplies, the district board may, by resolution, adopt such system and make withdrawals in accordance therewith.

(Amended by Stats. 1941, Ch. 314.)

Cash-basis fund 2313. The district board may establish and maintain a cash-basis fund for the purpose of defraying district expenses between the beginning of a fiscal year and the time of distribution of tax receipts in a fiscal year. Such cash-basis fund shall not exceed 60 percent of the estimated expenditures for a fiscal year.

(Added by Stats. 1947, Ch. 1020.)

Emergency fund 2314. The district board may establish and maintain an emergency fund for the purpose of defraying unusual and unanticipated expenses incurred during epidemics or threatened epidemics of insect-borne diseases. Expenditures from such emergency fund may be made only upon an affirmative vote of four-fifths of the members of the district board. Such emergency fund is not to exceed 25 percent of the estimated expenditures for a fiscal year.

(Added by Stats. 1947, Ch. 1020.)

Article 6. Annexation

Territory 2330. Any territory lying adjacent and contiguous to a mosquito abatement district may be annexed to the district.

Consent of city 2331. If the territory is in a city, consent to the annexation shall first be obtained from the governing body of the city. An authenticated copy of the resolution or order of that body consenting to the annexation, shall be attached to the annexation petition.

Petition 2332. The district board, upon receiving a written petition for annexation containing a description of the territory sought

to be annexed, signed by registered voters in the territory equal in number to at least 10 per cent of the number of votes cast in the territory for the office of Governor at the last gubernatorial election prior to the time the petition is presented, shall set the petition for hearing. It shall give notice of the hearing by publishing a copy of the petition, together with notice of the time and place set for the hearing, in each county in which any part of the district or of the territory is situated, and in each city situated wholly or in part in the territory. Publication

2333. Not more than five of the names attached to the petition need appear in the publication, but the number of signers shall be stated. Names published

(a) The governing body of the city shall by resolution announce its intention to petition for annexation to the district setting a place and a time not less than 14 days nor more than 30 days subsequent to the adoption of the resolution, at which time any resident of the city may appear and be heard by the governing body thereon.

(b) Notice of the hearing shall be published once in a newspaper of general circulation in the city, at least seven days before the date of the hearing. Notice of hearing

(c) Upon the completion of the hearing, or any continuances thereof, the governing body of the city, two-thirds of its members concurring therein, may adopt a resolution petitioning the annexation of the city to the district. A certified copy of the resolution shall be filed with the district board.

(d) Upon receipt of a certified copy of a resolution by the governing body of a city petitioning for annexation of the city to the district, the district board shall set the petition for hearing not less than 30 days nor more than 90 days from the date on which the resolution is filed with the district board. It shall give notice of the hearing by publishing a copy of the resolution together with notice of the time and place set for hearing, not less than two times in a newspaper of general circulation in the district and in the city, the second publication thereof being at least seven days prior to the date set for hearing.

2335. On the final hearing the district board shall make such changes as it believes advisable in the boundaries of the territory, and shall define and establish the boundaries. It shall also determine whether or not the petition meets the requirements of this chapter. Change in boundaries Findings

Failure to
object

2336. The failure of any person interested in the annexation of territory to the district to object to the annexation is an assent on his part to any change in the boundaries in the district that may be requested in the petition or to any change made by the district board.

Consent by
filing

2337. The filing of the petition with the district board is an assent on the part of each of the petitioners to any change in the boundaries of the district that will include the whole or any portion of the territory described in the petition.

Finding

2338. If upon the hearing the district board finds that the petition and the proceedings thereon meet the requirements of this chapter and that it is desirable and to the interests of the district and of the territory proposed to be annexed that the territory, with boundaries as fixed and determined by the district board, or any portion of it, should be annexed to the district, the board shall order the boundaries of the district changed to include the territory, or portion of the territory.

Order of
annexation

2339. The order of annexation shall describe the boundaries of the annexed territory and that portion of the boundary of the district which coincides with any boundary of the territory. If necessary in making the order, the board may have any portion of the boundaries surveyed.

Several
petitions

2340. If more than one petition for the annexation of territory have been presented, the district board may in one order include in the district any number of separate territories.

Order filed
with Secre-
tary of State

PART 3. SEWERS

CHAPTER 1. MUNICIPAL SEWER DISTRICTS, ACT OF 1911

Article 1. Definitions and General Provisions

4600. "District," as used in this chapter, means any district formed pursuant to this chapter or pursuant to any law which it supersedes. "District"

4601. "Sewer," as used in this chapter, includes sewers for sanitary or drainage purposes, and drains, conduits, and outlets for surface or storm waters. "Sewer"

4602. This chapter does not affect any other law under which sewer work or improvement may be done within or by any city but it provides an alternate system of proceedings for sewer work and improvements. The governing body of any city may proceed in making improvements either under this chapter, or under any other law. But when any proceedings are commenced under this chapter its provisions and such amendments as may hereafter be adopted, shall thereafter apply to all work done under those proceedings until completion. Scope and effect of chapter

If, after sewer work or improvement has been done or sewers acquired under this chapter the governing body of any city corporation deems it necessary or convenient to construct or acquire any additional sewer or sewers, the governing body may proceed to make improvement either under this chapter or under any other appropriate law.

Article 2. Formation

4605. The governing body of any city may create from time to time in the city separate sewer districts whenever in its judgment the districts are necessary or convenient for proper sanitation and drainage. Formation

Purpose	4606. Districts may be formed to construct or acquire sewers and to provide for the incurring of indebtedness to pay for the cost of the construction or acquisition of sewers.
Resolution of intention	4607. Whenever the governing body of a city determines that the public interest or convenience requires the construction, or acquisition by purchase or otherwise, of sewers in any part of the territory of the city, it shall pass a resolution to that effect.
Vote	4608. The resolution shall be passed by a vote of two-thirds of all its members and be approved by the mayor. 4609. The resolution shall:
Contents of resolution	(a) Describe the boundaries of the proposed district. (b) Designate the district by a distinctive name and number. (c) Declare the district to be the district benefited by the work, or improvement, or acquisition of the sewer. (d) Name a time and place for the hearing of objections by any person interested in the formation of the district or in the inclusion within the district of any land within the boundaries described in the resolution. (Amended by Stats. 1939, Ch. 1124.)
Publication	4610. The resolution, together with the names of the members of the governing body, voting for and against it and the name of the mayor approving it shall be published for at least two weeks successively next before the day fixed for the hearing in a newspaper of general circulation printed and published in the city.
Hearing	4611. On the day fixed for the hearing, or any day to which the hearing is adjourned, the governing body shall hear and consider any objections presented to the formation of the district or to the inclusion of any lands in the district. After the hearing of the objections, if it shall be determined by a vote of two-thirds of all the members of the governing body that the public interest requires the formation of the district, the governing body shall proceed to fix and determine its boundaries.
Resolution establishing district	4612. After making all necessary and proper changes in the boundaries, by a resolution passed by a vote of two-thirds of all its members, and approved by the mayor of the city, the governing body shall establish the district, and fix and determine its boundaries. This resolution, together with the names of the members of the governing body voting for and against the resolution and the name of the mayor approving it shall be spread upon the minutes of the governing body.

Article 3. Issuance of Bonds

Purpose of bond issue	4615. At any meeting after the passage and recording of the resolution, by ordinance passed by a vote of two-thirds of all its members and approved by the mayor, the governing body may: (a) Adopt plans and specifications for the proposed sewer work, if to be constructed.
-----------------------	--

(b) Describe the territorial district upon which the expense of the proposed sewer work, improvement, or acquisition, shall be chargeable.

In cities where no newspaper is published, the ordinance shall be posted in three public places in the district for two successive weeks prior to the date set for the election. No other notice of the election need be given.

Posting

4620. If two-thirds of the votes cast are in favor of the issuance of the bonds, the bonds may be issued and the indebtedness incurred.

Election

If less than two-thirds of the votes cast are in favor of the issuance of the bonds, the governing body of the city shall not within six months after the election pass any ordinance calling another election for incurring any indebtedness for sewer work within that district or in any district which has within its boundaries any of the territory of that district.

Manner of
payment
of bonds

4621. All bonds issued under this chapter shall be issued in the name of the city in which the district has been formed, and shall be payable in the following manner: A part to be determined by the city governing body, which part shall not be less than one-fortieth part of the whole amount of the indebtedness, shall be payable every year on a day and date, and at a place within the United States, to be fixed by the governing body and designated in the bonds, together with the interest on all sums unpaid at that date, until the whole of the indebtedness has been paid.

Bonds

4622. The bonds shall be issued in such denominations as the governing body determines, except that no bonds shall be of a denomination less than one hundred dollars (\$100) nor greater than one thousand dollars (\$1,000). The interest rate shall be specified in the bonds, and shall be payable semi-annually.

The bonds shall be signed by any officer of the city, designated for that purpose by the governing body by resolution adopted by a two-thirds vote of all of its members, and shall also be signed by the city treasurer and countersigned by the city clerk.

The coupons of the bonds shall be numbered consecutively and signed by the treasurer.

If any officer whose signature or countersignature appears on the bonds or coupons ceases to be an officer before the delivery of the bonds to the purchaser, his signature or countersignature is as valid and sufficient for all purposes, as if he had remained in office.

Proceeds

4623. The governing body of the city in which the district has been created may issue and sell the bonds at not less than their par value, and the proceeds of the sale shall be placed in the city treasury to the credit of the proper sewer district fund and shall be applied exclusively to the purposes and objects specified in the ordinance calling the election.

Article 4. Performance of Work

Notice for
bids

4627. Before the governing body awards contracts for doing any sewer work or improvement, the expense of which is to be paid out of the proceeds of sales of the bonds issued under this chapter, it shall cause notice with specifications to be posted conspicuously for five days on or near the chamber door of the governing body. The notice shall invite sealed bids for doing the sewer work or improvement. The governing body shall also cause notice of the proposed work and invitations to bid referring to the specifications posted or on file, to be published for two consecutive insertions in a daily, semiweekly, or weekly newspaper if there is one published and circulated in the city. If none, the posting is sufficient.

Form of bid

4628. All bids offered shall be accompanied by a check, payable to the order of the mayor, certified by a responsible bank for an amount which shall be not less than 10 per cent of the aggregate of the bid, or by a bond for that amount and

so payable, signed by the bidder, and by two sureties who shall justify before an officer competent to administer an oath, in double the amount of the bond, over and above all statutory exemptions.

4629. The bids shall be delivered to the clerk of the governing body, and the governing body shall in open session examine and publicly declare them. It may reject any or all bids if it deems this for the public good, and shall reject all bids other than the lowest bid of any responsible bidder, and may award the contract for the work or improvement to the lowest responsible bidder at the price named in his bid, if the award is approved by the mayor, or is made by a three-fourths vote of the governing body. Examination
of bids

4630. If an award is not approved by the mayor or made by a three-fourths vote of the governing body, without further proceedings the governing body may readvertise for bids for the performance of the work as in the first instance, and thereafter again proceed pursuant to this article. The checks and bonds furnished in connection with the bid so rejected shall be returned. Rejection
of bids

4631. The check or bond accompanying an accepted bid shall be held by the clerk of the city until the contract for doing the work has been entered into by the successful bidder. Security

If any bidder fails, neglects, or refuses to enter into the contract to perform the work within 10 days after the contract has been awarded to him, the certified check accompanying his bid and the amount for which it is drawn is forfeited to the city.

4632. The governing body may require such bonds as it deems adequate from bidders to whom contracts for the work or improvement are awarded, to insure the faithful performance of the contracts. Performance
bonds

4633. The governing body may designate any city officer, in his official capacity, to make all written contracts and receive all bonds authorized by this article, and to fix the time for the commencement, which shall not be more than 15 days from the date of the contract, and for the completion of the work under all contracts entered into by him. All work shall be prosecuted with diligence from day to day until completion. He may extend the time so fixed from time to time under the direction of the governing body. Officer acting

Members

A member of the governing body of each sanitary district existing at the time of the formation of a sanitation district, the whole or part of which is included in the sanitation district, is a member of the board.

If the sanitation district includes territory which is unincorporated and not included in a sanitary district, then a member of the county board of supervisors is a member of the board.

If the sanitation district includes all or part of one city and no sanitary district, or one sanitary district existing at the time of the formation of a sanitation district and no city, then two members of the board of supervisors are members of the board, unless the population included in the city or sanitary district existing at the time of the formation of a sanitation district is more than half of the population of the whole sanitation district, in which case one member of the board of supervisors and two members of the governing body of the city or sanitary district existing at the time of the formation of a sanitation district constitute the board of directors.

If the total number of cities and sanitary districts existing at the time of the formation of a sanitation district included in the sanitation district, in whole or in part, is two, and if the sanitation district does not include any territory not in cities or sanitary districts existing at the time of the formation of a sanitation district, then the district board includes two members from each of the governing bodies of the cities and sanitary districts existing at the time of the formation of a sanitation district in whole or in part within the sanitation district.

If the total number of cities and sanitary districts existing at the time of the formation of a sanitation district wholly or in part within the sanitation district, is two or more, and if the territory not included in cities or sanitary districts existing at the time of the formation of a sanitation district constitutes more than half of the total area of the sanitation district, then the district board includes a member of the board of supervisors for each of the supervisorial districts included in whole or in part of that part of the sanitation district which is not in cities or sanitary districts.

If the district includes no territory which is in cities or sanitary districts, then the county board of supervisors is the board of directors of the district.

Resolution 4920. If the petition is granted, the board shall by resolution order the dissolution of the district and the district is thereupon dissolved. The property of the district remains the property of the county in which the district is located.

Inclusion of territory in cities 4921. Upon the inclusion of all the territory of a district in one or more cities, either by reason of annexation or by reason of the incorporation of one or more cities, all funds paid into the county treasury to the credit of the district shall be paid over by the board as provided in this article.

Inclusion in one city 4922. If all of the district is included in one city, the fund shall be paid to the treasurer of the city and administered by the governing body of the city.

If a part only of the district is so included in one city and the remaining part of the district is included in one or more other cities then such proportionate part of the funds shall be paid to the treasurer of each city as the assessed valuation of the real property of the portion of the

district included in each city bore, before being so included, to the total assessed valuation of the real property of the district.

4925. When all territory in a district has been included in a city the district is thereupon, by reason of the inclusion, dissolved. Dissolution by inclusion of all territory in city

4926. If less than the whole of a district is included in a city either by reason of annexation or by reason of incorporation proceedings, the district continues in existence and continues to function except that the portion of the district included in the city is excluded from the district. But the inclusion of territory of a district in a city does not operate as a withdrawal of the territory from the district unless and until all outstanding contracts of the district have expired or the contracts, with the consent of the parties, have been modified or canceled so as to relieve the district of further obligation to pay for future maintenance in the territory so included. The rates shall be sufficient in each year for the payment of the proper and reasonable expenses of operation, repair, replacement, and maintenance of the works, and for payment of the sums required to be paid into the sinking fund. Establishment of rates

5041. The governing body shall establish rates that, beyond all reasonable doubt, will bring in sufficient money to meet the Amount of rates

interest and principal on all outstanding bonds as they fall due, in addition to the expense of operation.

Court order
to fix rates

5042. Whenever it appears that the rates are insufficient to provide enough money to pay the principal and interest, in addition to the operating expenses, and the governing body neglects or refuses to fix adequate rates therefor, any bondholder may petition the superior court for a writ of mandate to compel the governing body to increase the rates to such an extent as will make them sufficient to provide enough money for those purposes.

Variable
rates

5043. The governing body may establish variable rates for different classes of users, or for different parts of the area, where all or any portion of the sewage works have been previously installed and financed under other laws or methods, so that the variable rates may be most equitable and just to all concerned.

Limitation
on rates

5044. However, the rates may only be imposed and collected from the users of all or any portion of such works as are constructed with money derived from the sale of the bonds.

Additional
rates

5045. If the users of all or any portion of any works previously acquired and financed by other methods receive any additional benefits from the construction or operation of all or any portion of the works subsequently constructed or acquired from the proceeds of the bonds, the governing body may impose reasonable rates on the works previously acquired, but only sufficient to cover the value of the additional benefits.

Hearing

5046. No rates shall be established until after a public hearing, at which all the users of the works and owners of property served or proposed to be served thereby and others interested have opportunity to be heard concerning the proposed rates.

ordinance

5048. After the hearing the ordinance, resolution, or order establishing rates, either as originally introduced or as modified and amended, shall be passed and put into effect.

Copy of
schedule

5049. A copy of the schedule of the rates shall be kept on file in the office of the clerk, and shall be open to inspection by any interested person.

Extension of
rates to new
premises

5050. The rates for any class of users or property served may be extended to cover any additional premises thereafter served which fall within the same class, without the necessity of hearing or notice.

5051. Any change or readjustment of the rates shall be made in the same manner as the rates were originally established. Change of rates

5052. If the rate is not paid when due, on the first day of each calendar month thereafter a penalty of 10 per cent of the amount of the delinquent rate shall be added. Penalty for nonpayment

5053. The rates and penalties may be collected in the following manner: Collection

Attorney's fee

(b) The governing body may provide that the rates shall be collected with the rates for any other utility service rendered by the district and all the rates shall be itemized, billed upon the same bill, and collected as one item, together with and not separate from such other utility service charge. Rates

(c) Such rates may be collected with the rates for any other utility service furnished by a department or agency of such district over which the legislative body thereof does not exercise control, or with a publicly or privately owned public utility, with the written consent and agreement of said department or agency or public utility owner, which agreement shall establish the terms and conditions upon which such collections shall be made. Such agreement, in the discretion of such department or agency or public utility owner making the collections, also may provide that said rates shall be itemized, billed upon the same bill, and collected as one item, together with and not separately from such other utility service charge.

(Amended by Stats. 1949, Ch. 1507.)

5054. The remedies specified for collecting and enforcing rates are cumulative and may be pursued alternatively or may be used consecutively when the governing body so determines. Additional remedies

If any remedy is invalid, all valid remedies shall remain effectual.

5055. Until the principal and interest of the bonds are fully paid any holder of any bond outstanding at any time may compel the use of any or all of the remedies provided in this chapter. Bondholder may compel collection

5056. After rates are fixed pursuant to this article, any person may pay such rates under protest and bring an action against the governing body in the superior court to recover any money which the governing body refuses to refund. Payments made and actions brought under this section, shall be made and brought in the manner provided for the payment of taxes under protest and actions for refund thereof in Article 2, Chapter 5, Part 9, Division 1 of the Revenue and Taxation Code, insofar as those provisions are applicable. Article 8. Leases

Contract for
use of works

5060. Any district owning or operating works may contract with one or more other cities, counties, sanitation districts, or sanitary districts for the use of the works, but only to the extent of their capacity and without impairing their usefulness, upon such terms and conditions as may be fixed and approved by ordinances of the respective contracting entities. Contracts shall not be made for a period of more than 15 years nor in violation of the provisions of the ordinance authorizing the bonds.

Rates for
leased works

5061. The governing body of the district may by ordinance establish, change, and adjust rates for the service rendered in the lessee-district by the works, against the owners of the premises served, in the manner provided for establishing, changing, and adjusting rates for the service rendered in the district where the works are owned and operated, and the rates constitute a lien on the property served, and shall be collected as provided for rates made by the owner-district.

Appurtenant
works in
leased system

5062. The necessary intercepting sewers and appurtenant works for connecting the works of the owner-district with the sewerage system of the lessee-district shall be constructed by the owner-district or the lessee-district, or both, upon such terms and conditions as are set forth in the contract, and the cost or that part of the cost which is to be borne by the owner-district may be paid as part of the cost of the works from the proceeds of the bonds unless otherwise provided by the ordinance.

Income from
leased works

5063. The income received by the owner-district under the contract shall, if so provided in the ordinance, be deemed to be a part of the revenue of the works. The owner-district shall deduct from the whole cost and expenses such part as shall be paid by the lessee-district pursuant to the provision of the contract; but no rates shall be imposed or collected from the users of the works or portions thereof except in cases where the works or portions thereof have been acquired by means of the bonds, and unless additional benefits will be derived by the users as a result of the contract. In that case the rates shall be only sufficient to cover the value of the additional benefits.

The responsibility for the proper prescribing and dispensing of narcotic drugs is upon the practitioner, but a corresponding liability rests with the pharmacist who fills the prescription. An order purporting to be a prescription issued to an addict or habitual user of narcotics, not in the course of professional treatment but for the purpose of providing the user with narcotics sufficient to keep him comfortable by maintaining his customary use, is not a prescription within the meaning and intent of this division; and the person filling such an order, as well as the person issuing it, may be charged with violation of the law.

(Added by Stats. 1945, Ch. 955.)

Person for
whom

12188. Any applicable minimum distance may be one-half of that set forth in the quantity and distance table if the nearest building, railroad, or highway is effectually screened from the magazine either by a natural ground or an efficient artificial barricade of such height that:

Reduced
distance

(b) A straight line drawn from the top of any side wall of the magazine to any point 12 feet above the center of the railroad or highway will pass through the barricade.

Nonappli-
cation of
table

12189. The quantity and distance table is not applicable to any magazine if the nearest building, railroad, or highway is effectually screened from the magazine by a natural barrier, which:

(a) At any one point is 40 feet or more in height above a straight line drawn from the top of any side wall of the magazine to any part of the building, or to any point 12 feet above the center of the railroad or highway.

(b) Has a natural thickness of not less than 200 feet at the point where it is intersected by the straight line.

When
distance
reduced on
construction
of new build-
ing, etc.

12190. If at any time the distance from a magazine to the nearest building, highway, or railroad is decreased through the construction of a new building, highway, or railroad, the quantity of explosives kept or stored in the magazine shall be reduced to correspond with that specified for the new distance by the quantity and distance table. The distance need not be reduced, however, in the event that a new building is constructed in bad faith and with the intent to annoy, harass, oppress, or hinder the owner of the magazine.

Removal of
elective
officers

14114. The holder of any elective office of any fire protection district organized or existing under this chapter may be removed or recalled at any time by the electors; provided he has held office for at least six months. The provisions of this section are intended to apply to officials now in office, as well as to those hereafter elected.

Procedure

The procedure to effect such removal or recall shall be as follows: A petition demanding the election of a successor to the person sought to be removed shall be filed with the secretary of the district board, which petition shall be signed by registered electors of such district equal in number to at least 25 percent of the highest vote cast within such district for candidates for the office, the incumbent of which is sought to be removed, at the last general election in such district at which an incumbent of such office was elected; and said petition shall contain a statement of the grounds on which the removal or recall is sought, which statement is intended solely for the information of the electors. Any insufficiency of form or substance in such statement shall in nowise affect the validity of the election and proceedings held thereunder. The signatures to the petition need not all be appended to one paper. Each signer shall add to his signature his place of residence, and if within a town having named streets and numbered houses, street and number. Each such separate paper shall have attached thereto an affidavit made by an elector of the district and sworn to before an officer competent to administer oaths, stating that the affiant circulated that particular paper and saw written the signatures appended thereto; and that according to the best information and belief of the affiant, each is the genuine signature of the person whose name purports to be thereunto subscribed and of a qualified elector of the district.

Within 10 days from the date of filing such petition, the secretary of the board shall examine and from the records of registration ascertain whether or not said petition is signed by the requisite number of qualified electors, and he shall attach to said petition his certificate showing the result of said examination.

If by the said certificate the petition is shown to be insufficient, it may be supplemented within 10 days from the date of such certificate, by the filing of additional papers, duplicates of the original petition except as to the names signed. The secretary shall, within 10 days after such supplementing papers are filed, make like examination of such supplementing petitions, and if a certificate shall show that all the names to such petition, including the supplemental papers, are still insufficient, no action shall be taken thereon; but the petition, including all supplemental papers, shall remain on file as a public record; and the failure to secure sufficient names shall be without prejudice to the filing later of an entirely new petition to the same effect.

If the petition, including any supplemental paper, shall be found to be sufficient, the secretary shall submit the same to the

district board without delay, whereupon the board shall forthwith cause a special election to be held within not less than 35 nor more than 40 days after the date of the order calling such election, to determine whether the voters will recall such officer; provided, that if a general election is to occur within 60 days from the date of the order calling for such election, the board may in its discretion postpone the holding of such election to such general election or submit such recall election at any such general election for officers of such district occurring not less than 35 days after such order. If a vacancy occur in said office after a recall petition is filed, the recall election shall nevertheless proceed as in this section provided. One petition is sufficient to propose a removal and election of one or more elective officials. One election is competent for the removal and election of one or more elective officials.

Vacancy

Nominations for any office under such recall election shall be made in the manner prescribed as follows: Not less than 15 days before such recall election any 10 or more qualified electors in the district may file with the district board a nomination petition requesting that the names of certain electors of the district, specified in such nomination petition be placed on the ballot as candidates for the offices named therein. Such nomination petitions shall not specify more than one name for each office to be voted upon at such recall election. The name of the incumbent officer sought to be recalled shall not be named in any nomination petition. The names proposed by the various nomination petitions so filed, and no others, shall be printed on the ballots, but there shall be sufficient blank spaces left in which electors may write other names if they so desire. The nomination petitions shall be preserved in the office of the secretary of the district.

Nomination
procedure

There shall be printed on the recall ballot, as to every officer whose recall is to be voted on thereat, the following question: "Shall (name of person against whom the recall petition is filed) be recalled from the office of (title of the office)?" following which questions shall be the words "Yes" and "No" on separate lines, with a blank space at the right of each, in which the voter shall indicate, by stamping a cross (X), his vote for or against such recall. On such ballots, under each such question, there shall also be printed the names of those persons who have been nominated as candidates to succeed the person recalled, in case he shall be removed from office by said recall election; but no vote shall be counted for any candidate for said office unless the voter also voted on said question of the recall of the person sought to be recalled from said office. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office nor shall the name thereof be written in any blank space provided for said office.

Ballot

If a majority of those voting on said question of the recall of any incumbent from office shall vote "No", said incumbent shall continue in said office. If a majority shall vote "Yes", said incumbent shall thereupon be deemed removed from such

office, upon the qualification of his successor. The election shall be conducted, canvass of all votes for candidates for said office shall be made, and the result declared in like manner as in a regular election within such district. If the vote at any such recall election shall recall the officer, then the candidate who has received the highest number of votes for the office shall be thereby declared elected for the remainder of the term. In case the person who received the highest number of votes shall fail to qualify within 10 days after receiving the certificate of election, the office shall be deemed vacant and shall be filled according to law. If the vote at any such recall election shall not recall the officer, no further petition for the recall of such officer shall be filed before the expiration of six months from the date of such recall election.

NOTE—Stats. 1945, Ch. 728, also contained the following provision:

SEC. 9. If any section, subsection, clause, sentence or phrase of this act which is reasonably separable from the remaining portions of this act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this act. The Legislature hereby declares that it would have passed the remaining portions of this act, irrespective of the fact that any such section, subsection, clause, sentence or phrase of this act be declared unconstitutional.

Insofar as the regulations do not grant an automatic permit for the operation or use of any article, machine, equipment or contrivance in existence upon the effective date of such regulations, a permit shall not be required without first affording the owner, operator, or user thereof a reasonable time within which to apply for such permit, and to furnish the air pollution control officer the information required pursuant to Section 24269.

The board may promulgate such rules and regulations, as herein provided for, but in no event shall a permit be denied an operator, operating orchard or citrus grove heaters, if such heaters produce unconsumed solid carbonaceous matter at the rate of one (1) gram per minute, or less.

Discretion
of hearing
board

24297. In determining under what conditions and to what extent a variance from said requirements is necessary and will be permitted, the hearing board shall exercise a wide discretion in weighing the equities involved and the advantages and disadvantages to the residents of the district and to any lawful business, occupation or activity involved, resulting from requir-

A petition for election of directors by zones may be signed and filed with the board of directors by registered voters residing within a local hospital district, equal in number to at least 15 percent of the number of votes cast in that district for the Office of Governor at the last preceding election at which a Governor was elected. Upon receipt of this petition the board of directors shall, by resolution, divide the local hospital district into five zones and number the zones consecutively from 1 to 5. In establishing these zones the board of directors shall provide for representation in accordance with population and geographic factors of the entire area of the local hospital district. The board of directors shall fix the time and place for a hearing on the proposed establishment of zones. At this hearing any elector of the district may present his views and plans in relation to the proposed zoning, but the board of directors shall not be bound thereby and their decision, in the resolution adopted, shall be final.

Division
into zones

Hearing

After the hearing and final determination by the board of directors the board shall then prepare a measure to be printed

on the ballots used at the next general hospital district election, or at a special election to be held for that purpose. The measure shall be printed on the ballots substantially as follows: Printing of measure

“Shall members of the board of directors be elected by zones, as described in the resolution of the board of directors dated _____?”, with the words “Yes” and “No” so printed in connection therewith that the voters may express their choice.

The returns of such election shall be canvassed and declared as at other general hospital district elections, and if it appears that a majority of the votes cast in such election are in favor of said measure the board of directors shall by resolution declare the zones established and shall describe the boundaries of the zones. At the expiration of the terms of office of the members of the board of directors then in office, and thereafter, such members of the board of directors shall be elected by zones. If, at the expiration of said terms of office, three members of the board of directors are to be elected, those three members shall be elected from the zones designated by odd numbers; if two members are to be elected, those two members shall be elected from zones designated by even numbers. Canvass
Election of members

One member of the board of directors shall be elected by the electors of each of the zones. No person shall be eligible to hold the office of member of the board of directors unless he shall have resided in the zone from which he is elected for 90 days next preceding the date of the election.

The formation of a local hospital district may provide for the election of members of the board of directors by zones as above provided for by substantially including in the petition for formation the provisions hereinabove required to be included in such measure, in which event it shall not be necessary to hold the election above provided for, and the members of the board of directors shall be elected from the zones as described in said petition, except that the first board of directors shall be appointed, upon the formation of the district, by the board of supervisors of the county in which the land or a greater part of the land in the district is situated. One member shall be appointed from each zone.

The terms of the members of the first board of directors appointed under the provisions of this section shall be determined as follows: Terms of members

The members appointed from the zones designated by odd numbers in the petition shall hold office for four years and the members appointed from the zones designated by even numbers in the petition shall hold office for two years. Thereafter, the term of office for all members shall be four years.

Any vacancy upon the board shall be filled by appointment by the board of supervisors of the county, from the zone left unrepresented on the board of directors. Any person appointed to fill such vacancy shall hold office only until a successor, to Vacancies
